

DR. FASIHULLAH KHAN

EDUCATIONAL QUALIFICATION:

DEGREE	INSTITUTION	DIVISION	YEAR	SUBJECTS
Ph.D.*	Chemical Engineering Department, Bath University, U.K.		1983	Chemical Reaction Engineering
Completed Advanced Courses in Chemical Engineering	Chemical Engineering Department, Bath University, U.K.		1980	Catalytic Process, Chemical Reaction Engineering
M.Sc.	Applied Chemistry Department, University of Karachi	First-Class First Position	1974	Chemical Process Industries Organic
B.Sc. (Hons)	Applied Chemistry Department, University of Karachi	First-Class First Position	1973	Applied Chemistry

EXPERIENCE:

Lecturer	Applied Chemistry Department, University of Karachi	1975 - 1983
Assistant Professor	Applied Chemistry Department, University of Karachi	1983 – 1992
Associate Professor	Applied Chemistry Department, University of Karachi	1992 – 1997
Professor	Applied Chemistry Department, University of Karachi	1997 – March 2006
	Transferred to Department of Chemical Engineering as Professor	April 2006 – April 2011
Adjunct Professor	Department of Chemical Engineering	April 2011 to date

*Ph.D. Topic: Photo assisted production of Hydrogen and Ammonia in Fluidized Bed Reactor (Supervisor Dr. Po-Lock Yue.)

TEACHING:

Unit Operation, Chemical Reaction Engineering, Petroleum & Petrochemical Technology and Chemical Process Industries to Graduate & Post Graduate Classes.

RESEARCH:

Supervised Ph.D. research on:

- (i) Catalytic Air Blowing of Asphalt (1994).
- (ii) Catalytic oxidation of Gas Oil (2010)
- (iii) Re-refining of used lubricating Oil (submitted)

ADMINISTRATION:

Chairman, Department of Chemical Engineering April 2006 to April 2011.

Incharge Department of Chemical Technology / Engineering October 2004 to April 2006.

Chairman, Department of Applied Chemistry and Chemical Technology, (September 2000 to September 2003).

AWARD:

V.C. Research Publication Award 1995.

Accepted as Ph.D. Supervisor (HEC Indigenous Ph.D. Programme in Chemical Engineering).

PUBLICATIONS OF DR. FASIHULLAH KHAN

1. Selective Homogeneous Oxidation System for Producing Hydroperoxides Concentrate: Kinetic Simulation of Catalytic Oxidation of Gas Oil. *Ind Eng. Chem. Res.(USA)*, 49, 7210-7226, 2010.
2. Selective Homogeneous Oxidation System for Producing Hydro per oxide Concentrate: Kinetics of Catalytic Oxidation of Gas Oils, *Ind. Eng. Chem. Res.(USA)*, 48, 5642 – 5655, 2009.
3. Production of Low Metal Content Re-refined Lubricating Oil, *Petroleum Science and Technology (USA)*, 27:1810 – 1820, 2009.
4. Effect of Extraction and Adsorption on Re-refining of Used Lubricating Oil, *Oil & Gas Science and Technology (UK/France)*, Rev, 64, No.2, pp. 191-197 (2009).
5. Characterization of Indigenous Magnesite: A Prospective Adsorbent for Re-refining of Used Lubricating Oil. *Petroleum Science and Technology (USA)*. (In Press).
6. Effect of Catalysts on Effluent during Air Blowing of Asphalt. *Pet. Sc. & Tech. (U.S.A.)* 21, 7 & 8 1335 – 1346, 2003.
7. Acidity of the Effluent produced during Air Blowing of Asphalt. *Pak. J. Sci. Ind. Res.* 46(2) 78 – 80, 2003.
8. The chemical composition of catalytic Air Blowing Asphalt. *FUEL, U.K.*, 74, 684, 1995.
9. Catalytic Air Blowing of Asphalt. *CHEM. ING. TECH. (Chemical Engg. & Tech.)*, Germany, 63, 170, 1991. Complete Manuscript Microsofiche MS 1928 – 1991.
10. Factors Influencing Asphalt Oxidation. *FUEL, U.K.*, 69, 509, 1990.
11. Dielectric Properties of oxidized Asphalt. *J. RES. (SC.)*, BZ. UNIV., Pakistan, 3(1), 29, 1991
12. Methods for increasing photo-assisted production of hydrogen over titanium exchange zeolities. *INT. J. HYDROGEN ENERGY, USA*, 16(9), 609, 1991.
13. Photo-assisted ammonia synthesis in fluidized bed reactor over titanium exchanged zeolities. *CHEM. ENGG. SC., UK*, 38(11), 1893, 1983.
14. Improvements relating to the conversion of solar energy into chemical energy. *BRITISH PATENT. Appl. G.B. 2*, 108, 402, 1983.
15. Photo-assisted water cleavage and nitrogen fixation over titanium exchanged zeolities. *INDUS. ENGG. & CHEM. PRODUCT RES. & DEVELOP., USA*, 22, 238, 1983.
16. Photo-chemical synthesis of ammonia over zeolities. *J. CHEM. SOC. CHEMICAL COMMUN., UK*, 1049, 1981.

(Appeared as news item in :*THE ECONOMIST*”, UK, Nov. 1981 p. 102 and “*NEW SCIENTIST*”, UK, p. 733, Dec. 2981)
