

PROF. DR. VIQAR HUSSAIN

Name: Prof. Dr. Viqar Husain

Date of Birth 15 – 06 - 1955

Nationality Pakistani (NIC: 42301–6786119–9)

Religion Islam

Present Status: * Professor & Ex-Chairman, Department of Geology, University of Karachi, Pakistan,
*Worked as World Bank Consultant in 2009 on drinking water quality (arsenic and other contaminants) for school children in nine districts of Sindh.
*Project Director HEC PC-I Strengthening of teaching and research facilities in Geology Department, KU.
Convenor SEGMITE & AGID** Vice President (Asia).
*Chief Editor: International Journal of Economic and Environment Geology. www.econ-environ-geol.org
ISSN 2223957 X
Phone: Office 9261300-26 Ext. 2540
E-mail: prof.viqarhusain@yahoo.com

* Society of Economic Geologists and Mineral Technologists (SEGMITE)

** International Association of Geoscientists for International Development (AGID)

Educational Qualifications

Ph.D. Economic Geology	1982	Aligarh Muslim University, India
M. Phil do	1979	do
M. Sc. Geology (1 st Division)	1976	do
B. Sc. (Hons.) Geology	1974	do
Post Doctoral Fellowship of Indian Council of Scientific Industrial Research (CSIR)	1984-86	Department of Geology, University of Dehli, India
DAAD Post Doctoral Fellowship	1992	Technical University, Berlin, Germany.

Employment Experience

Professor	1999-till date	Department of Geology
-----------	----------------	-----------------------

Chairman	2006-Jan. 2009	University of Karachi (Teaching, Industrial Mineralogy and Environment Geology to B.Sc (Hons.) and M. Sc Geology students. Department of Geology, University of Karachi
Senior Scientific Officer	1997-1999 (till 22 nd Sept.)	Research & Development Branch PCSIR Head Office Kamal Attaturk Road, Karachi.
Senior Scientific Officer Laboratories	1987-1997	Mineral Technology Division, PCSIR Jamrud Road, Peshawar.
Lecturer	1982-84	Department of Geology, A.M.U and Department of Civil Engg. Zakir Husain College of Engineering & Technology, Aligarh Muslim University, India

Project Assignments

Project Director	2008-till date	Project: PC-I (HEC) Strengthening of Teaching and Research Facilities in Department of Geology, University of Karachi.
Principal Investigator	2008-till date	Geological and Mineralogical Studies for Value Added industrial applications of China Clay deposits of Nagar Parkar, Sindh (A Pakistan Science Foundation Project).

Ph. D Supervision

Supervising Three M.Phil/Ph. D students at Karachi University on Value added industrial applications of China Clay deposits of Nagar Parkar, Sindh and Arsenic pollution in groundwater in Thatta, Hyderabad and Tando Mohammad Khan districts of Sindh and mitigation options.

M.Phil/M.Sc. Thesis Supervised

* M.Phil thesis of Peshawar University Geology Department on Geochemical Study of Hazara Phosphorites for their Industrial Applications.

* A large number of M.Sc. projects of Karachi and Peshawar University on industrial minerals, mining and mineral based industries, environment and water pollution and solid waste management were supervised in the last 20 years.

Research Interests

Economic Geology, Industrial Mineralogy, Mineral based industries Surface and Ground water and environment pollution and mitigation options. Safe drinking water quality testing. Environment Impact Assessment Studies (EIA) of mining, mineral based industries and other projects. Community awareness programs for health and hygiene. Feasibility studies of cleaner and renewable energy sources.

Studies Carried out

A number of R & D projects on industrial minerals related to glass, ceramics, marble and cement industries, carried out in Mineral Technology Division of PCSIR Laboratories, Peshawar.

Geotechnical and seismological studies of Elevated Expressway, Karachi.

EIA of Jetty at Port Qasim, Karachi.

Desktop study of seismic threat potential to Karachi.

Petrographic studies of suitable material for road and concretes for a large number of Private Companies.

Dozens of M.Sc. projects at Karachi University Geology Department on underground and surface water pollution, solid waste management. EIA studies of geotechnical and other mining and industrial projects.

Feasibility studies related to Alternate and Environmentally Clean Energy Projects.

Book/ Proceedings/ Abstract Volumes

1. Objective Geology by Viqar Husain and Nasir Khan. Anis Enterprises, Delhi, India, p 192.
2. Proceedings First SEGMITE Conference on industrial minerals (1990) Peshawar (V. Husain et. al.edits.)
3. Proceedings First SEGMITE Symposium on export oriented development of mineral based industries (1991) Peshawar (Viqar Husain et al. edits).
4. Abstract Volume Second SEGMITE International Conference on export oriented development of mineral based industries (Viqar Husain, edit.), Karachi, 1994.

5. Proceedings Second SEGMITE International Conference on export oriented development of mineral based industries (A. Khan, Q. Huda and Viqar Husain, edits), Karachi, 1996, 223p.
6. Abstract Volume SEGMITE-UNESCO IGCP International Symposium and Field Workshop on phosphorites and other industrial minerals (Viqar Husain, edit.) Abbottabad, 1995.
7. Souvenir cum Abstract Volume of SEGMITE and British Geological Survey Industrial Minerals for Development International Workshop held in Peshawar in March, 1997, 35p. (Viqar Husain, edit.)
8. Souvenir and Abstracts of Third SEGMITE International Symposium on Sustainable Development of Surface and Groundwater Resources held in March 1999, (Viqar Husain, edit.).
9. Proceedings SEGMITE-UNESCO IGCP International Symposium and Field Workshop on phosphorites and other industrial minerals (Viqar Husain, Rubina Bilqees, Zafar Kaifi, Shahida edits.) Karachi, 2001, 68p.
10. Abstract Volume Geol. Survey Bangladesh-AGID-SEGMITE International Conference on the Role of Natural Resources and Environment in Sustainable Development in South and Southeast Asia (NESDA), held in Dhaka, January, 2003.
11. Published Abstract on Approach to Geoscience Education and Research is Essential for changing needs of the rapidly developing world: A case study. In Abstract Volume 32nd International Geological Congress, Florence, Italy, August 2004.
12. Published Abstract on Investment Opportunities for Arab World in the Mining & Mineral Industry Sector of Pakistan. In Abstract Volume of International Conference on Resources and Environment held at Mafrqa, Jordan August, 2005.
13. Serious Earthquake threat to Karachi – Makran Coast. Presented and Published in the Abstract Volume of the Sixth International Conference on the Geology of the Middle East held in Al-Ain, U.A.E. 20 – 22 March, 2006.
14. Edited various SEGMITE Newsletters and refereed papers for various research journals and SEGMITE technical lectures and launched SEGMITE International: A Journal of Resource, Industrial and Environmental Geology as its Chief Editor.

Research Publications

- * Sustainable Development of Small Scale Mines in Pakistan. Viqar Husain (2005). Geological Society, London Special Publications, 250, 135 - 140.
- * Liquefaction Effects of Bhuj Earthquake on Thar-Indus Delta Region of Sindh, Pakistan. V. Husain, S.A.Sheikh, A.R.Tabrez and S.Anjum. SEGMITE International: A Journal of Resource, Industrial and Environmental Geology, 1(1) 39-42 (2004).

- * Geological and Flotation studies of rock phosphate from Kakul deposits of Hazara, NWFP. M.M. Khan, V. Husain and N. Jan. Jour. of Engg. & App. Science., NWFP U&E.T, Peshawar, 11 (1992) 53-57.
- * Geochemical studies of Lambidogi (Hazara) phosphates, V. Husain, M.A. Khawaja and M.A. Khattak (PJSIR), 34 (7-8) (1991) 265-271.
- * Mineralogical and analytical studies of the southwestern Tanol barite district, Hazara, Pakistan. V. Husain, H. Khan, K.Qureshi, N. Ahmad and I. Ali. (PJSIR), 4 (2-3) (1991) 65-69.
- * Prospects and problems of mineral based industries in Pakistan. V. Husain. Industrial Minerals, UK. September (1991), 81-82.
- * Self reliance through industrial minerals. V. Husain, R. Bilqees and F. Siddiqi. Science Technology and Development, Islamabad, 10 (4) (1991) 5-10.
- * Developing Pakistan's mineral resources and mineral based industries. V. Husain and R. Bilqees. Proceedings First SEGMITE National Symposium on export promotion of minerals, mineral products and gemstones, Peshawar (1991).
- * Mineralization of Kumhar magnesite, Hazara N.W.F.P. (Short Communication). V. Husain, N. Jan and F. Siddiqi (PJSIR), 33 (1990) 325.
- * Petrology, mineralogy and origin of Hazara phosphates. V. Husain, N. Jan and R. Bilqees. Proceedings First SEGMITE National Conference on Industrial Minerals, Peshawar (1990).
- * Barite deposition near Haripur V. Husain, H. Khan, K. M. Qureshi and Nisar Ahmad. Proceedings First SEGMITE National Conference, Peshawar (1990).
- * Prospects for development and utilization of some industrial minerals. V. Husain and M.A. Khattak. Proceedings First SEGMITE National Conference on industrial minerals, Peshawar (1990).
- * Value added industrial applications of Nizampur limestone. V. Husain, N. Jan and M. A. Khwaja. Proceedings First National Seminar on Chemistry, University of Peshawar (1990).
- * Petrology and industrial applicatons of Nizampur limestone, N.W.F.P. Pakistan. V. Husain, R. Bilqees and S. Nasreen. PJSIR, 32 (11) (1989) 775-779.
- * Prospects and problems of mineral based industries in Pakistan. V. Husain and K. M. Qureshi. Proceedings of National Seminar on Mineral Based Industries, Deptt. of Mining Engg. NWFP U.E.T, Peshawar (1989).
- * Petrology of Kakul phosphorites, district Abbottabad, NWFP, V. Husain, M.A. Qaiser, N. Ahmad and R. Bilqees. Geol. Bull Univ. Peshawar, 20 (1987) 153-159.
- * Petrology of barite deposits of southern Hazara, NWFP Pakistan V. Husain, F.A. Siddiqi, K.M. Qureshi and A. Ghani. Geol. Bull. Punjab Univ. No. 2 (1987) 136-142.

- * Birmania phosphorites: petro mineralogical characters and petrological implications. V. Husain and D.M. Banerjee J. Geol. Soc. India, 27 (1986) 550-555.

Papers Presented in National / International Conferences held in & outside Pakistan

- ❖ Serious Earthquake threat to Karachi – Makran Coast. Presented in the Sixth International Conference on the Geology of the Middle East held in Al-Ain, U.A.E. 20 – 22 March, 2006.
- ❖ Presented Paper on Investment Opportunities for Arab World in the Mining & Mineral Industry Sector of Pakistan. Presented in International Conference on Resources and Environment held at Mafraq, Jordan August, 2005.
- ❖ Presented paper on Approach to Geoscience education and research is essential for changing needs of the rapidly developing world: A case study. In 32nd International Geological Congress, Italy August 2004.
- ❖ Presented paper on Sustainable development of small scale mines in Pakistan. In International Conference on sustainable developing industrial minerals, organized by British Geological Survey and AGID London in Nov. 2003 also Co-chaired one of the technical sessions.
- ❖ Presented keynote paper on Role of Industrial Minerals in National Economic Development and chaired the recommendation session. In SEGMITE-GSP-AGID International Conference held in Dhaka, Bangladesh in January 2003.
- ❖ Investment opportunities in mineral sector of Pakistan National seminar held in November, 2001 organized by Resource Development Foundation, Karachi.
- ❖ Measures to protect water bodies in Pakistan, presented in Third SEGMITE International Symposium on water resources held in Karachi, in March, 1999.
- ❖ Land degradation causes presented in International Workshop on Environment in May, 1999. Islamabad.
- ❖ Investment opportunities in mineral sector in Pakistan, International Seminars on Mineral Exports and Gems Shows held in Peshawar in 1994 1995, 1996, 1997.
- ❖ Mineral Potential of North Pakistan and Scope for Cooperation in Trade with Sri Lanka, Second South Asia Geological Congress, Colombo, Sri Lanka (1995).
- ❖ Potential and obstacle in exporting mineral commodities from Pakistan. Second SEGMITE International Conference and Exhibition, Karachi (1994).
- ❖ NWFP's mineral and gemstone resources and their economic potential, National Workshop Mingora, Pakistan (1993).
- ❖ Sedimentological and Geo-chemical characteristics of Hazara Phosphorites. In International Symposium & Field Workshop organized by UNESCO-IGCP-325 in Interlaken, Switzerland (1993).
- ❖ Correlation of Palaeogeography of Hazara Phosphorites with those occurring in India. First South Asia Geol. Congress, Islamabad, Pakistan (1992).
- ❖ Pakistan's industrial mineral resources for 21st century presented in 29th International Geological Conference, Kyoto, Japan (1992).

- ❖ Clay Mineral Resources of Pakistan Presented in 29th International Geological Workshop held in Nigoya, Japan in 1992.
- ❖ Self reliance through industrial minerals. National Seminar 1991, Islamabad Pakistan.
- ❖ Two papers on barite and phosphorite deposits of NWFP were presented in first SEGMITE National Conference Peshawar (1990).
- ❖ Paper on pragmatic industrial mineral policy for Pakistan was presented in First SEGMITE National Symposium held in Peshawar 1990.
- ❖ Vein type Barite mineralization in NWFP. Second National Geological Congress, Baragali Pakistan (1990).
- ❖ Economic Potential of Phosphates in Pakistan, National Conference on Metallurgy, Lahore, Pakistan (1988).
- ❖ Phosphorites of Hazara in International Seminar on tectonics, Peshawar, Pakistan (1987).

International Events Organized

- * Co-organized 6th International Conference on Geology of the Middle East held in Al-Ain in 2006. The AGID and SEGMITE were also one of the co-organizers of this event.
- * Co-organized international conference on Mineral and other Natural Resources held in Mafraq, Jordan in 2005. The AGID and SEGMITE were also one of the co-organizers of this event.
- * Organized NESDA, (SEGMITE-AGID-GSB) International Conference and Exhibition on Sustainable Development of Natural Resources, Mineral based Industries and their Impact on Environment, Dhaka, Bangladesh. January 2003.
- * Organized Third SEGMITE International Symposium and Exhibition on sustainable development of water resources Karachi March 8-10, 1999 in collaboration with International Association of Hydro-geologists, National Institute of Oceanography and many national organizations including Pakistan Science Foundation.
- * Organized an International SEGMITE workshop for industrial Minerals for Development in collaboration with British Geological Survey, PCSIR and Pakistan Mineral Development Corporation in Peshawar, in March 1997.
- * Member Organizing committee, EPB-SEGMITE-PCSIR Annual International Seminars and Minerals Gems shows held in 1994, 1995 1996 and 1997, 1999, 2000, 2002, Peshawar, Pakistan.
- * Organized an International SEGMITE Training Course on Potable Water Supply to Rural Areas, in Peshawar, October, 1996 in collaboration with Pakistan Science Foundation and Association of Geo-Scientists for International Development, Peshawar.
- * Organized SEGMITE and UNESCO-IGCP Project 325 Sponsored International Symposium and Field Workshop on Phosphorites, Abbottabad, Pakistan (1995), held in association with Export Promotion Bureau, Geological Survey of Pakistan and Sarhad Mineral Development Authority and PCSIR.

- * Second SEGMITE International Conference and Exhibition on the Export Oriented Development of Mineral Resources and Mineral Based Industries, organized in association with Export Promotion Bureau, Asian Development Bank and Geological Survey of Pakistan held in Karachi, Pakistan (1994).
- Member Organizing Committee UNDP International Round Table Conference on Direct Foreign Investment in Exploration and Mining in Pakistan, Islamabad 1994, organized by Ministry of Petroleum and Natural Resources, Government of Pakistan.

Organizing

- * Member Organizing Committee AGID'S International Conference on Geoscience Education and Environment in October 2009, Dhaka, Bangladesh.

National Events Organized

- * Organized and delivered dozens of SEGMITE lectures and seminars in Peshawar and in association with many organizations including Geological Survey of Pakistan, Karachi University, PCSIR etc. on mineral, water, petroleum resources of Pakistan and their systematic utilization and efficient utilization. Topics of lectures also included the natural hazards, water and environmental pollution and remedies.
- * Organized Two SEGMITE Razi Siddiqi Memorial Lectures on Geology of Sindh and Geology of Himalayan Foothills of Northern Pakistan in association with Geological Survey of Pakistan in Karachi and Peshawar in April 2004 and 2005. Published lecture copies were distributed among participants and those concerned in and outside Pakistan including members of SEGMITE.
- * Future of Higher Education in the context of Higher Education Commission policies, Karachi, April 2004.
- * One day seminar on marine water resources of Pakistan, May, 2003.
- * Panel Discussion on Monitoring of Quality of Bottled Mineral Water, Karachi, April, 2002.
- * Panel Discussion on Bhuj-Thar earthquakes, Karachi, 2001.
- * National Workshop on Exports of Minerals, Mingora, Pakistan (1993).
- * First SEGMITE National Symposium on Export Promotion of Minerals and Mineral Products, Peshawar, Pakistan (1991).
- * First SEGMITE National Conference on Industrial Minerals, Peshawar, Pakistan (1990).
- * National Seminar on Prospects and Problems of Mineral based Industries in Pakistan, Peshawar (1989).
- * SEGMITE Razi Memorial National Lectures organized in different cities of Pakistan in 2004, 2005, 2006, 2007, 2008 and 2009.
- * A National workshop on alternate energy potential of Pakistan 2008, Karachi.

Research/Consultancy Projects Completed

- A number of research projects on the industrial testing of minerals for their value added industrial applications and economic potential (including the size of reserves) were completed on the phosphorite, limestone, dolomite, silica sand, marble, magnesite, chromite, barite, copper and other mineral deposits of NWFP and Balochistan were completed since 1987.
- Desktop top study on seismic threat to Karachi, problems faced by marble industry in Sindh and Balochistan and Geotechnical/seismic studies for Karachi Elevated Expressway have been recently completed. Besides, a few consultancy projects on behalf of SEGMITE and Geology Department, Karachi University and KTH, Sweden have been submitted to different Govt. agencies on quality of drinking water in Karachi and mitigation measures and arsenic contamination in underground water in Sindh province of Pakistan.

Others

- * Since 1987, surveying testing of industrial rocks and minerals raw materials mainly occurring in NWFP led to the setting up of a cement factory in Nizampur and helped develop many marble, glass and ceramic industries. These studies also helped a large number of local mine owners to develop their mines and supply minerals to the local industries in the country. Helped develop glass, marble, ceramic and gems industries and trade in NWFP.
- * I am the founder Convenor of the Society of Economic Geologists & Mineral Technologies (SEGMITE). It has about 400 Life Members and Life Corporate Members living in Pakistan and 15 other countries of the world. The society has organized a number of national and international events in Pakistan and published proceedings, organized lectures and held industrial clinics, training courses, field workshops on water and oil mineral/ gems resources and their development, utilization and conservation. It has helped in narrowing the gap between technical and business communities in Pakistan's mineral sector.
- * Delivered dozens of lectures within and outside Pakistan and published a large number of articles on mineral & water resources, related industries and higher education etc. in national dailies and international newsletters/magazines on nation mineral resources, national mineral policy need for conservation of water and energy resources and their sustainable development.
- * Organized a series of group discussions and lectures in Pakistan on mineral and gemstone resources of Pakistan and related industries by speakers/panel members (local and foreign academicians and traders). Organized a number of business meetings of SEGMITE, held in Pakistan, Sri Lanka, Japan and China.
- * Chaired a large number of SEGMITE Board of Directors Meetings and Conference Organization Committees Meetings as well as technical and recommendation sessions in a number of international conferences held on mineral resources in Pakistan and abroad.

- * I am Vice President (Asia) of Association of Geoscientists for International development (AGID) with main offices in London, U.K and Sao Palo, Brazil. It is an international NGO working for the growth of geo-sciences, development of water and energy resources and protection of the environment.
- * Participated in a large number of seminars and workshops. Edited about two dozens newsletters, abstract volumes, souvenirs and conference proceedings and also edited SEGMITE International Journal, 2004.
- * I have been the National Representative of Pakistan for UNESCO-IGCP project 325 on correlation of paleogeography of world Phosphorites.
- * Submitted Ph.D. Scholarship Program proposal to the members of National Task Force on Science & Technology by Government of Pakistan in 1999.
- * I was also member of the organizing Committee of UNDP Round Table Conference on Foreign Investment in mining and mineral sector of Pakistan held in Islamabad in 1994 and the recommendations of this conference formed the basis of the first ever National Mineral Policy announced by the Government of Pakistan in 1995.
