

Purpose / Scope

The prime objective is to familiarize new generation with vacuum and its allied technologies and make them understand the importance of vacuum in the socio-economic setup of the country. This workshop will provide a platform for interactive discussions on new ideas & developments in vacuum technologies as well as problem solving approaches to vacuum equipments in industry.

Programme

The program includes series of lectures and discussions by highly qualified and experienced faculty in the field of vacuum science and technology.

Key Topics

- Basic Vacuum Physics
- Vacuum System Design
- Vacuum Generation
- Vacuum Leak Detection
- Vacuum Standardization
- Vacuum Control
- Vacuum Measurement
- Vacuum Seals
- Vacuum Coatings
- Vacuum Metallurgy

Participation

The workshop will be limited to 50 - 55 participants exclusively from industry and academic institutions. Participation is by invitation only, and we will encourage active researchers in the field of vacuum science and technology to apply.

Fee

- Industry : Rs. 10,000/-
- Academia : Rs. 4,000/-
- Students : Rs. 1,000/-

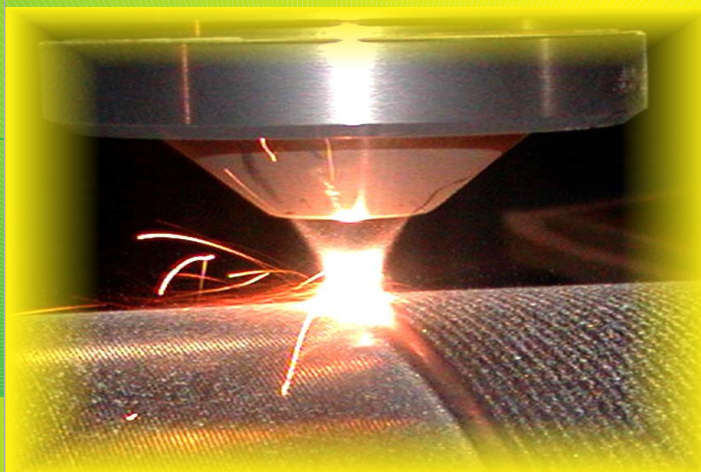

Payable through bank draft / pay order in favor of NINVEST, Islamabad.

PS: Course material & meals will be provided.

15% discount is available (excluding students) for a group of three or more persons.
