

8. Research Collaborations & Training course at International level (2024-2026)

i. International Training course “Botanical Garden Development and Management 2026” at Shanghai Chenshan National Botanical Garden, China (June 28th to July 12th, 2026)

We extend our heartfelt congratulations to **Ms. Rabia Akhlaq** from the Centre for Plant Conservation, University of Karachi, on successfully completing the International training course, "Botanical Garden Development and Management".

This training course was organized by the International Association of Botanic Gardens (IABG Asian Division) in collaboration with Shanghai National Chenshan Botanical Garden. Ms. Rabia Akhlaq was selected as one of 15 participants representing 11 countries in this exclusive two-week global initiative aimed at advancing plant conservation and international collaboration.

This course offered advance training in botanical garden development, climate resilience strategies, and seed bank management for rare species preservation. Through hands-on fieldwork in herbarium preparation and landscape design, Ms. Rabia Akhlaq gained valuable practical expertise. Her achievement expands global research networks while introducing innovative conservation practices to benefit education, research, and the community.

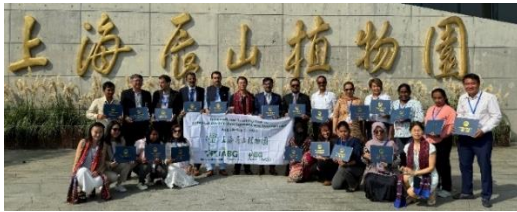

ii. Training course “Botanical Garden Development and Management” at Chenshan Botanical Garden, China (Aug. 19th to Sep. 7th, 2024)

"International Association of Botanic Gardens (IABG Asian Division) and Chenshan Botanical Garden, Shanghai, China" organized the international training course "Botanical Garden Development and Management". It is sponsored by the International Cooperation Ministry of Science and Technology, The People's Republic of China.

Ms. Taba Rauf was selected among 60 applicants from different countries of Asia (Pakistan, India, Nepal, Iran, Kyrgyzstan, Indonesia, Thailand, Cambodia, Philippines, and Srilanka). She represented "Centre for Plant Conservation, Prof. Dr. S. I. Ali Botanical Garden, University of Karachi, Pakistan during this training course.

This training course was held to strengthen Botanical Garden networking among Asian developing countries & promote exchange of professional skills and ideas.

iii. Research Collaborations

1. Dr. Roohi Bano visited NARC Islamabad and Quaid-e-Azam University, Dept. of Botany, dated August 2024 for the research collaboration with the Chinese researcher Zehuan Wang, Associate Professor, Dept. of Traditional Chinese, University of Traditional Chinese Medicine, Guiyang, Guizhou, China.

2. Dr. Roohi Bano, Associate Professor, Centre for Plant Conservation, University of Karachi visited Trabzon, Turkey for a period of 3-months in the course of a joint project supported by TUBITAK ARDEB 1001-1222966. During her scientific visit, she performed morphological and molecular phylogenetic studies on the relevant plant group.
